AUTHOR INDEX – 1980

Y. C. Alarie
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Alexander, J. I.
Logic Aided Fire Detection System, p. 212

Badr, Osama
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Boardway, R. M.
The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Culver, Duncan
A Small Scale Laboratory Flammability Test for Electronic Components, p. 89

Eklund, Thor I.
The Thermal Impact of External Pool Fires on Aircraft Fuselages, p. 231

Gann, Richard G.
Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Floryan, Daniel E.
Fire Performance Studies on Polyetherimide, p. 284

Gilwee, William J., Jr.
Oxygen Index Tests of Thermosetting Resins, p. 22

Heime, Michael
Oxygen Balance in Starch Smoldering, p. 249

Heskestad, Gunnar
The Role of Water in Suppression of Fire: A Review, p. 254

Hilado, Carlos J.
Hospital Fire Safety From the Viewpoint of the Patient, p. 131

Hill, Richard G.
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

Hovde, Per Jostein
Combustion Properties of Glass Fiber Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

Inham, J. D.
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Karim, Ghazi A.
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Kourtides, Demetrius, A.
Oxygen Index Tests of Thermosetting Resins, p. 22

Krause, Ralph F., Jr.
Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Lieu, P. J.
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Magill, J. H.
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Metwally, M.
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Mueller, W. A.
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Murphy, Regina M.
Hospital Fire Safety From the Viewpoint of the Patient, p. 131

Murrin, Elizabeth C.
A Study of the Responses of Firefighters to Fire Fatalities, p. 45

Nelson, Gordon L.
Fire Performance Studies on Polyetherimide, p. 284

Ohlemiller, T. J.
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Orzeszko, Andrezei
Oxygen Balance in Starch Smoldering, p. 249

Parker, John A.
Oxygen Index Tests of Thermosetting Resins, p. 22

AUTHOR INDEX – 1980

Inham, J. D.
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Karim, Ghazi A.
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Kourtides, Demetrius, A.
Oxygen Index Tests of Thermosetting Resins, p. 22

Krause, Ralph F., Jr.
Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Lieu, P. J.
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Magill, J. H.
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Metwally, M.
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Mueller, W. A.
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Murphy, Regina M.
Hospital Fire Safety From the Viewpoint of the Patient, p. 131

Murrin, Elizabeth C.
A Study of the Responses of Firefighters to Fire Fatalities, p. 45

Nelson, Gordon L.
Fire Performance Studies on Polyetherimide, p. 284

Ohlemiller, T. J.
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Orzeszko, Andrezei
Oxygen Balance in Starch Smoldering, p. 249

Parker, John A.
Oxygen Index Tests of Thermosetting Resins, p. 22

Peddada, S. V.
Flammability and Thermal Stability of Polyphosphazene Copolymers, Part II, p. 275

Petrella, Ron V.
The Mass Burning Rate of Polymers, Wood and Organic Liquids, p. 3

Prusaczyk, J. E.
The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Reilly, W. W.
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Rogers, F. E.
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Sarkos, Constantine P.
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

The Thermal Impact of External Pool Fires on Aircraft Fuselages, p. 231

Schneider, Alan L.
Liquefied Natural Gas Spills on Water: Fire Modeling, p. 302

Schwaim, Norman D.
Attitudes and Human Behavior in Fires: An Exploratory Study of Relevant Concepts, p. 135

Street, T. T.
Logic Aided Fire Detection System, p. 212

Wierzba, I.
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Wilde, D. Graham
Combustion of Polyurethane Foam in a Tunnel Ventiliated at an Air Speed of 5 Meters Per Second, p. 263

Williams, F. W.
Logic Aided Fire Detection System, p. 212

Williams, Gina R.
A Study of the Responses of Firefighters to Fire Fatalities, p. 45

Woolerton, Greydon R.
A Small Scale Laboratory Flammability Test for Electronic Components, p. 89

SUBJECT INDEX – 1980

Aircraft, effect of external fires on
The Thermal Impact of External Pool Fires on Aircraft Fuselages, p. 321

Aircraft fires
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

Alumina resins
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Burn velocities
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Cabin fire hazards, aircraft
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

Cellular flames
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Combustion properties
Combustion Properties of Glass Fiber Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

Coping mechanisms, firefighters
A Study of the Responses of Firefighters to Fire Fatalities, p. 45

Circuit boards, flammability testing
A Small Scale Laboratory Flammability Test for Electronic Components, p. 89

Design
Logic Aided Fire Detection System, p. 212

Detectors
Logic Aided Fire Detection System, p. 212

Diffusion pilot flame
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Elevated temperature oxygen index
Oxygen Index Tests of Thermosetting Resins, p. 22

Electronic components, flammability testing
A Small Scale Laboratory Flammability Test for Electronic Components, p. 89

Ethylene
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Experimental methods
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Fiber optics
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Filler/filler concentration
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Fire
Attitudes and Human Behavior in Fires: An Exploratory Study of Relevant Concepts, p. 135

Fire attitudes
Attitudes and Human Behavior in Fires: An Exploratory Study of Relevant Concepts, p. 135

Firefighters, and fatalities
A Study of the Responses of Firefighters to Fire Fatalities, p. 45

Fire modeling, natural gas spills
Liquefied Natural Gas Spills on Water: Fire Modeling, p. 302

Fire suppression, with water
The Role of Water Suppression of Fire: A Review, p. 254

Fire tests
The Mass Burning Rate of Polymers, Wood and Organic Liquids, p. 3

Flame propagation in tubes
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Flame retardant
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Flammability limit
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Flammability
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Combustion Properties of Glass Fiber Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Flammability, polymers
The Mass Burning Rate of Polymers, Wood and Organic Liquids, p. 3

Flammability test apparatus
A Small Scale Laboratory Flammability Test for Electronic Components, p. 89

Flammability tests
Oxygen Index Tests of Thermosetting Resins, p. 22

Flashover
The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Full scale tests
The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Glass fiber reinforced polyester
Combustion Properties of Glass Fiber Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

Heat release
Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Heat stratification, aircraft fires
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

Hospital fires
Hospital Fire Safety From the Viewpoint of the Patient, p. 131

Human behavior in fires
Attitudes and Human Behavior in Fires: An Exploratory Study of Relevant Concepts, p. 135

Hydrogen
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Ignitability
Combustion Properties of Glass Fiber

Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

Ignition
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Insulation
The Fire Performance of Room Structures With Increased Insulation Tested Under Flashover Conditions, p. 314

Kinetics of oxidation
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Limiting oxygen index
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Low-smoking resins
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Mass burning rate
The Mass Burning Rate of Polymers, Wood and Organic Liquids, p. 3

Methane
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Microprocessor
Logic Aided Fire Detection System, p. 212

Natural gas spills
Liquefied Natural Gas Spills on Water: Fire Modeling, p. 302

Operational parameters
Logic Aided Fire Detection System, p. 212

Oxyben balance, starch smoldering
Oxygen Balance in Starch Smoldering, p. 249

Oxygen consumption
Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Oxygen index
Oxygen Index Tests of Thermosetting Resins, p. 22

Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Polyetherimide, flame retardancy characteristics
Fire Performance Studies on Polyetherimide, p. 284

Polymer residue
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Polymers
The Mass Burning Rate of Polymers, Wood and Organic Liquids, p. 3

Rate of Heat Release Measurements Using Oxygen Consumption, p. 117

Polyphosphazene
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Polyphosphazene copolymers, flammability
Flammabilty and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Polyurethane foams
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Pool fire, aircraft
The Thermal Impact of External Pool Fires on Aircraft Fuselages, p. 231

Post-crash fires
Post-Crash Fuel Fire Hazard Measurements in a Wide Body Aircraft Cabin, p. 151

The Thermal Impact of External Pool Fires on Aircraft Fuselages, p. 231

Prediction methods, fire suppression
The Role of Water in Suppression of Fire: A Review, p. 254

Propane
The Ignition of a Stream of Premixed Fuel and Air Near the Flammability Limit by a Diffusion Pilot Flame, p. 221

Smoke density
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Smoldering combustion
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Starch smoldering
Oxygen Balance in Starch Smoldering, p. 249

Stratified mixtures
An Experimental Approach for Investigating Laminar Flame Propagation in Methane-Air Mixtures Within Circular Tubes, p. 106

Test chamber
Logic Aided Fire Detection System, p. 212

Thermal stability
Flammability and Thermal Stability of Polyphosphazene Copolymers. Part II, p. 63

Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Combustion Properties of Glass Fiber Reinforced Polyester (GRP) and the Effect of Some Additives and Fillers, p. 184

Thermochemistry
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Thermophysics
Smolder Characteristics of Flexible Polyurethane Foams, p. 32

Thermoplastics
Development of Flame and Smoke Retardant Thermoplastic Molding Compounds, p. 275

Thermosetting resins
Oxygen Index Tests of Thermosetting Resins, p. 22

Toxicity
Toxicity and Thermal Properties of Polyphosphazenes, p. 167

Urethane foam, combustion
Combustion of Polyurethane Foam in a Tunnel Ventilated at an Air Speed of 5 Meters Per Second, p. 263

Urethane foam, tunnel fire
Combustion of Polyurethane Foam in a Tunnel Ventilated At An Air Speed of 5 Meters Per Second, p. 263

Vapor Cloud detonation
Liquefied Natural Gas Spills on Water: Fire Modeling, p. 302
